Wine Tasting Event to Benefit Hudson Relay

Hosted by Bill and Lisa Quinones

Saturday May 15th at 7:30pm

5427 Port Chester Drive

\$10/person (\$20/couple)

Featured wines are Riesling (white) and Pinot Noir (red)

RSVP: 330-714-2453 or bgfive@windstream.net

Here's how it works: Each person brings a bottle of one of the featured wines (Riesling or Pinot Noir) plus another bottle of wine (or any beverage) to share. Tasters sample the wines, and vote for their favorite. Prizes are awarded for the winning wines. There will also be a **50/50 raffle**. Tickets may be purchased anytime (\$1 each or 7 for \$5), and you do not need to be present to win! **All proceeds (beyond prize money) will benefit the Hudson Relay for Life.** Not a wine drinker? No problem -- just bring another beverage to share. **Appetizers and desserts would also be appreciated.**

Neighborhood Garage Sale

Our neighborhood garage sale will be **Friday May 21st**. Our friend and former neighbor, Sandy Covault has volunteered to coordinate this event. At this time we only know of one family who is planning to participate, so please contact Sandy (330-931-6037) if you want in on the action! The Penny family will be donating their proceeds to the Hudson Relay for Life. Please contact Jane Penny (330-650-2433) if you would like to donate items to their sale.

Pond Maintenance

The warm weather we experienced earlier this Spring resulted in a lot of algae in our ponds. They should be treated sometime this week, and we should see a decline in algae soon. Thanks for your patience as we waited for Mother Nature to cooperate.

Relay for Life

Team Towbridge will again be participating in the Hudson Relay for Life. The event is scheduled for **June 11-12** at Hudson High School. Many thanks to Jane Penny for being our team captain (for the third year!) Please contact Jane if you would like to join the team or make a donation. There is also a **link to the Relay page on our new website.**

New Traffic Signal

Summit County Engineers will install a traffic signal at the intersection of Barlow Road and Akron Peninsula Road this year. A survey of the intersection has been completed, and mapping has been provided to TMS of Stow to prepare the detailed traffic signal drawings. Completion is scheduled for late fall of 2010.
